PROFESSIONAL EXPERIENCE

Spack Package Developer and HPC Troubleshooting Specialist

01/2024 – present
Rochester, NY

RIT Research Computing

Making open-source contributions to the package manager Spack 🔗 , utilizing Git extensively to contribute my work, and writing Python code to automate from-source software installation. Collaborating with my co-workers to finish GitLab issues in a timely manner for RIT's researchers.

FIRST ROBOTICS COMPETITION

Team 1511 Rolling Thunder

2016 – 2020

Scouting Lead

Lead our scouting team, coordinating our efforts to better understand our competition. Built an Android app to gather data about teams during matches, analyzed that data, and communicated with our drive team to gain an advantage.

EDUCATION

Web and Mobile Computing

Rochester Institute of Technology

Currently enrolled, graduating in 2025.

AWARDS

Eagle Scout

11/2019

Boy Scout Troop 312
